Difficult conversations are a normal part of everyday life whether it is in your workplace or in your personal relationships. It might be saying no to a leave request at work, it could be dealing with inappropriate behaviour at work, it could be completing a performance plan, it could be ending a relationship, it could be giving negative feedback or it may be needing to apologise.

Regardless of what the difficult conversation is about, most people prefer to walk away from it, delay it, do the work themselves or avoid the conversation completely.

This full day workshop will give you the tools and the awareness to be more comfortable, effective and successful in your difficult conversations.

After this workshop you will no longer fear or avoid difficult conversations. You will be more confident and aware of your role in a difficult conversation and you will be better equipped with the tools needed to deal effectively with a wide range of difficult conversations.
