  First connect with your audience before you begin to train, educate or inform them

  Learn to speak without notes and speak extemporaneously
- **Master the platform**
  Stop hiding behind the podium and use the stage effectively
- **Make full use of your voice**
  Your voice is the instrument that conveys your message
- **Move your body and use gestures properly**
  Gestures and body language deliver over 50% of your message
- **Present with passion and improved confidence**
  Emotion, passion, authenticity and sincerity are crucial in getting your message across
- **Structure a memorable message**
  Learn what will make your message memorable and "stick" in your audiences mind

BIOGRAPHY

Peter Dhu has been speaking professionally full time for 10 years. He began his working life working for the WA Health Department as a Medical Scientist. In his 30 years as a scientist, he managed various pathology labs and WA's Organ Donation Agency.

He now specialises in helping people overcome their fear and find their voice by training them in public speaking. This is a remarkable transition because Peter is a person who stutters, and chose not to speak for much of his life. He brings a real-life success story and courage to his work, where he inspires people with his own compelling story.

He is a living example that anyone can overcome their fears and unlock their hidden potential so they can have the courage to speak up and inspire the world with their stories.

He shows people how they can change the world one conversation at a time.
