PETER DHU

INSPIRATIONAL KEYNOTE SPEAKER, PUBLIC SPEAKING TRAINER & COACH

Corporate Communication Experts

ABOUT THE FACILITATOR:

Peter Dhu has been speaking professionally full time for 15 years. He began his working life working for the WA Health Department as a Medical Scientist. In his 30 years as a scientist, he managed various pathology labs and WA's Organ Donation Agency.

He now specialises in helping people overcome their fear and find their voice by training them in public speaking. This is a remarkable transition because Peter is a person who stutters, and chose not to speak for much of his life. He brings a real-life success story and courage to his work, where he inspires people with his own compelling story.

He is a living example that anyone can overcome their fears and unlock their hidden potential so they can have the courage to speak up and inspire the world with their stories.

He shows people how they can change the world one conversation at a time.
